

MHB CLASSIC-ISO Profile system

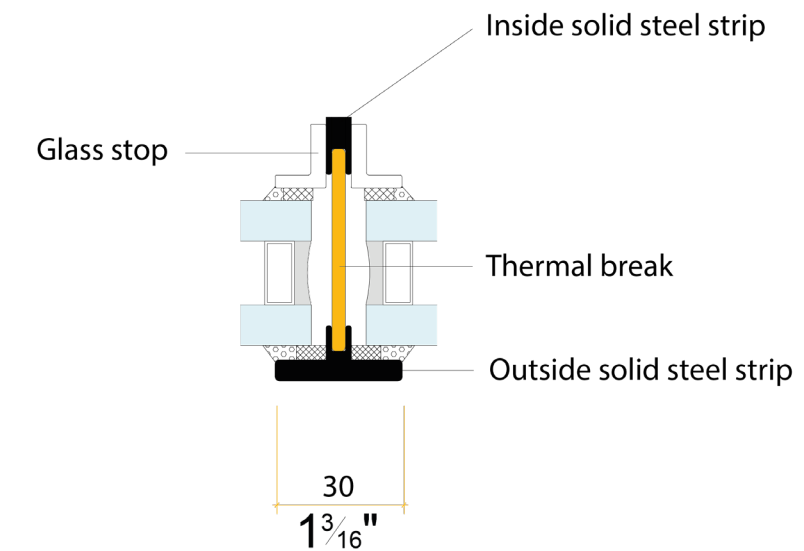

30 mm / 1 3/16" width | 100+ Years Service Life Prediction | Architectural heritage

Overview

Our Classic-ISO massive steel profile allows for a vintage, refined look that resembles the hot rolled steel, equal leg profiles from the early 20th century. Classic-ISO profiles are perfect for renovation projects and can have both interior and exterior glazing. They meet all of today's highest technical standards while respecting any architectural heritage they may be used in.

- Patented profile system with unique 30 mm / 1 3/16" sightlines, providing unrivaled design freedom.
- MHB is the exclusive developer and manufacturer of all its steel profile systems, allowing for optimal adaptability and quality control.
- Outstanding thermal insulation certified according to European NEN-EN ISO standards and American NFRC standards.
- Extreme durability with a predicted service life of over 100 years.
- Customizable true divided or simulated divided glass partitioning and glass stops.
- Create harmony with consistent detailing for all configurations in your project.
- Available in any RAL color or actual precious metals such as bronze for a unique and durable finish.
- Putty seal option available for a distinctive, authentic heritage appearance.

Unrivaled freedom to design

MHB is the exclusive developer and manufacturer of all its patented profile systems, which allows us to improve and adapt our products on a project-specific basis. If you have any project-specific needs or wishes, please let us know and we will work with you to create the optimal solution:

- Custom detailing.
- Custom oversized window & door dimensions.
- Automated systems.
